Professional Summary

Results-driven Flutter Developer with over 5 years of hands-on experience building production-ready, cross-platform mobile applications. Expert in crafting responsive interfaces (Material Design 3), implementing robust state management, and integrating seamless Firebase and REST API solutions. Proven track record of delivering 10+ end-to-end scalable digital products for global clients and startups.

Technical Skills

- **Languages:** Dart, Java, JavaScript, Python, C++, SQL
- **Frameworks & Libraries:** Flutter, Material Design 3, REST APIs, WebSockets
- **State Management:** Provider, Riverpod, GetX
- **Backend & Database:** Firebase, Firestore, SQLite, SharedPreferences, Supabase
- **Tools & DevOps:** Git, GitHub, Android Studio, VS Code, Postman, Figma

Experience

Hari Om OTT Platform

Flutter & Web Developer

Remote

Jan 2026 – Present

- Architected and developed internal workflow management and automation applications using Flutter.
- Streamlined business operations and reduced repetitive manual tasks by introducing custom enterprise software utilities.

GAO.Tek Inc.

Software & Automation Intern

Remote

2025

- Collaborated within a cross-functional global team to architect automation scripts and workflow solutions.
- Assisted with third-party software integrations and performance optimization across internal applications.

Freelance Flutter & Software Developer

Full-Stack Mobile & Web Development

Remote

2019 – 2024

- Successfully delivered **10+ production-ready mobile applications**, custom web systems, and utilities for global clients.
- Handled the complete SDLC from initial requirements gathering to successful App Store and Google Play deployment.
- Partnered closely with emerging startups to design, build, and optimize scalable Minimum Viable Products (MVPs).

Projects & Production App Portfolio

Featured Mobile Deployment: 10+ Apps Portfolio

Google Play & Client Shipments

- Developed, tested, and successfully published a diverse portfolio of **10+ cross-platform mobile applications** specializing in e-commerce, utility tools, productivity, and real-time chat systems.
- Integrated diverse features including secure payment gateways, live location tracking, offline synchronization, and push notifications.

Rivava Finance App

Upcoming Play Store Release

- Designed a cross-platform finance and expense tracking app using Flutter, Riverpod state management, and localized SQLite.
- Implemented complex analytics dashboards, crisp historical data visualization, and micro-interactions with Material Design 3.

Rivava Web Platform & UI Component Libraries

Open-Source Contribution

- Built a fast, SEO-optimized web application and engineered reusable open-source component libraries to minimize duplication.
- Maintained active public code ecosystems under organizational profiles ([AdityaS-appco](#) and [Rivavainfo](#)).

Education

Dr. A.P.J. Abdul Kalam Technical University

Bachelor of Technology in Computer Science and Engineering (2021 – 2025)

Uttar Pradesh, India

CGPA: 7.31/10
